

# The National Valve Museum

---

## Updates December 2015

Updated the software to allow more items in the right hand extras menu and added many additional links – plus a few fixes to bad links.

I found on youtube a TV program from the 1980s. The secret Life of Machines – Radio. Well worth a watch. Has a section with Gerry Wells at the museum at Dulwich.

Added two articles:- Valves for Microwaves (art-205) & Special Quality Valves (art-206).

Added seven timeline features:- Andrew Gray died in 1953 (time-095). An advert for a television chassis – with 15 inch tube. (time-096). An advert for a television kit with a six inch VCR97 as the tube. (time-097). Valves at the 1953 Radio Show. (time-098). Cellular Circuits – a novel modular construction system. (time-099), Valves at the June 1955 Show (time-100). TV CRT Glassware in 1955 (time-101).

Added one additional technical features:- VHF Anode Connectors (add147)

Added 15 vintage adverts: adv-0950 – adv-0964.

Added another 27 exhibits to take the total from 4308 to 4335.

Added two new references both being PDF files of the Philips Factory Valve Codes.
