

The National Valve Museum

Updates March 2018

This month I have found some better examples of some earlier exhibits and these entries have been revised and new images added.

Mike Edwards of the Kolster-Brandes Museum has sent in some extra images and the museum has a more prominent link.

A bug in the new advanced search has been pointed out to me and now corrected. An error in the equivalents list has also been checked and corrected.

Added 53 exhibits to take the total from 5221 to 5274.

Added 5 boxes.

- box318 – Impex Radio 12A5

- box319 – Triad 25Z5

- box320 – Philco 6A7E

- box321 – Frith Radiocraft EAC91

- box322 – National Electronics 12BH7A
