

# The Valve Museum

---

## Updates December 2021

Any file reference given here can be located by using the search facility. E.g., A search for art-322 will go directly to the article. The article will also appear in the articles index and linked to some exhibits and/or indexes.

Boxes and adverts can be found in the same way, by search or via the indexes.

Related links appear in the main heading box, under the title plus the extra's menu on the right side of each page is being expanded to give links to related material.

Where the date of introduction is known, the exhibit pages now contain links to other valves and adverts released in the same year. This avoids having to find the year in the timeline section.

The 2018 search facility for finding details of unknown valve types has been re-named Type Finder and advertised on the r-type site after one user suggested that such a facility may prove useful. Indeed, it has!

### Added 22 Vintage Adverts

Adv-1686 – Mullard valves for the set of the future – 1932

Adv-1687 – Cossor Mica Bridge – 1932
